Type: Outdoor Banner Frame

Outdoor

Tension Banner

User Instructions

- 1 Open out the centre and end 'A' frames (1a), pushing down each locking arm to secure in place (1b).
 - 2 Push fit the top and bottom horizontal tubes into the plastic joiners of the 'A' Frames (2a). Ensure that these joiners are facing inwards before assembly (2b).
 - 3 To attach the graphic, pass an elastic bungee cord through each and every eyelet on the graphic banner (3a) and then around the frame to secure (3b).
 - 4 Corner eyelets require a bungee cord loop around the tops and sides of the frame.
- ! For increased safety, ground pegs are included for use on grassed areas.
